Advent Spool Instructions

1. Trim out numbered spool wraps.

2. Write a message, verse, or clue to a gift or treat hiding place on the back of each strip. This can be done all at once or the night before each is to be revealed.

3. Using glue stick or tape, attach ends of wraps to center of spools and wind around each, hiding message or blank area. Seal at the numbered area with a dab of glue or tape.

4. Thread spool onto string to create a garland or loop through the hole with a bead at the knot to create Advent tree ornaments.

5. Beginning December 1, count down the days to Christmas by unwrapping one spool in numbered order each day.
