A Mother's Top Ten Memory Box

Documenting personal and family memories through the years can be daunting. But keeping *Top Ten* lists is an easy and fun way to archive special events, ideas, stories, and favorite things. Simply jot down ten things about any given subject or a place in time you would like to remember forever and tuck it into your memory box. Add a title and date(s) to each of your lists. Your lists can be in numbered order or randomly listed and can be started and finished at any time. Lists can be written on any paper surface (the back of a receipt, for example,) and either transferred later to a lined card or placed in the box as-is. The most important thing is that the memories make it into the box.

Why ten? Often we can only think of a few things to list about any given thing or life event, but prompted to come up with a minimum of ten things helps us dig deeper to remember and cherish more about our adventures, ourselves and the ones we love.
